

3D V Bend Welded Fence

 **9373101948**

POWDER COATED 3D WELDED V BEND FENCE

Premium Security Fencing Solution for Residential, Commercial & Industrial Applications
Strong. Stylish. Long Lasting.

Powder Coated 3D Welded V Bend Fence is a modern high-strength security fencing system designed to provide maximum protection with an elegant appearance. Manufactured using premium quality galvanized steel wires and precision welded mesh panels, the fence features distinctive V-shaped reinforcement bends that significantly enhance rigidity and load-bearing capacity.

The electrostatic powder coating process creates a smooth, corrosion-resistant finish that withstands harsh weather conditions, making it an ideal fencing solution for long-term outdoor use.

Key Features

- ✓ Heavy-duty welded steel mesh construction
- ✓ V Bend technology for superior strength and anti-deformation performance
- ✓ Premium powder coated finish for excellent rust and UV resistance
- ✓ Modern aesthetic design suitable for premium properties

- ✓ High visibility with maximum security
- ✓ Low maintenance and long service life
- ✓ Quick and easy installation
- ✓ Available in multiple heights and mesh sizes
- ✓ Compatible with square, rectangular and peach-shaped fence posts

Technical Specifications

Material: High Quality Mild Steel / Galvanized Steel Wire

Surface Treatment: Hot Dip Galvanized + Polyester Powder Coating

Mesh Type: 3D Welded Wire Mesh with V Bends

Wire Diameter: 4 mm / 5 mm / 6 mm (customizable)

Panel Height: 3 ft, 4 ft, 5 ft, 6 ft, 8 ft

Panel Width: Standard 2500 mm

Mesh Opening: 50×200 mm / 55×200 mm / Custom Sizes

Coating Thickness: 60–100 Microns

Color Options: Green, Black, White, Grey, Blue and Custom RAL Shades

Applications

Residential Boundaries

Farm Houses & Villas

Industrial Premises

Warehouses

Schools & Colleges

Parks & Gardens

Government Projects

Airports & Railway Areas

Solar Plants

Commercial Buildings

Hospitals

Sports Complexes

Benefits

The unique 3D V Bend design provides extra rigidity without increasing weight, making the fence both economical and highly durable. The powder coated finish protects against corrosion, moisture, chemicals and sunlight, ensuring years of maintenance-free performance.

Its clean lines and attractive appearance enhance the overall aesthetics of any property while delivering reliable perimeter security.

Why Choose Our Powder Coated 3D V Bend Fence?

Premium quality raw materials

Precision robotic welding

Uniform powder coating

Superior weather resistance

High tensile strength

Long operational life

Cost-effective security solution

Professional installation support available
